

Chapter 12

The Snakes of Fire and their Anger

Before attempting to know about the Snakes of Fire and their anger, let us try to learn about the vital bodies and one of the seven holy spirits of God which had come upon Christ.

The vital bodies are of three types.

1. Physical body 2. Astral body 3. Heavenly body.

1. Physical body.

Human body is physical body. It becomes soil after death (decay). [But the bodies of Christ and holy Mary who blessed enough to give birth Christ, did not decay. Just like that, the physical bodies of Rishis do not decay after death.].

2. Astral Body

Astral body is being given by God to those who deserve heaven and also having lost their physical body. They don't have sexuality.

3. Heavenly body.

The holy bodies of numerous angels, who are the creations of God and also the holy body of the 33 crore deities (who are the children of mind of Christ), as well as the holy bodies of other heavenly set are heavenly bodies.

[The set of angels quarreled with God didn't lose their body. But the holiness and glory of their body had lost. So, they expelled from heaven and now known as devils. Their body became very ugly.] Even though angels are of heavenly bodies, they don't have sexuality. But they are considered to be as males. The righteous deities do have sexuality.

We have learned that the Snakes of Fire are of heavenly bodies. We can understand from the Hindu Vedas that the Snakes of Fire were molded by God from the divine Fire. But the Snakes in the earth were created from the soil itself.

It is easy for us to study about the Snakes of Fire if we think about the holy divine spirit. Which is one of the seven spirits of God and also had come upon Christ. In Bible, it is recorded that the divine holy spirit came to Christ in the form of dove. The holiness, power, glory and wisdom of divine spirit is infinite. But no such attributes seen in doves in the earth. They are merely perishable creatures.

Snakes of Fire are heavenly bodies which have resemblance with King Cobra (seen in earth) in shape. We have read that they were created from the holy divine Fire. The wisdom, glory, holiness and power of these heavenly bodies are beyond the concept of man.

God had been leading the Israel people to Canan through a desert. They provoked God in the desert by committing sin. God had sent the Snakes of Fire and tortured them. The victims of the Snakes of Fire died immediately in the desert without advancing even a single step. The leader of Israel, Moses apologized to God for help and then God asked him to create an image of the Snake of Fire made up of brass and raise it on a stick so that everyone can view it. The brass-image of the Snake of Fire became the sign for escape from the Snake-bite. They escaped from Snake-bite by looking at the image.

God asked Moses to mold the image of the Snake of Fire with brass and raise that with the help of a stick, visible to all of them and from the above incident, it is proved that Snakes of Fire are heavenly bodies superior to man. As a weapon in the hands of God, their poison is highly dangerous. Regarding the Snakes of Fire, one phrase is there in the Bible ie “The flying Snakes of Fire”. Because though they lack wings, they can fly very fast like arrow through air (travel invisibly) from one place to another.

The length of Snake of Fire is comparatively less. Often they possess shiny golden colour. But they can change their body colour. These heavenly bodies can appear in front of man and quickly disappear without creeping on the ground. They make reefs and inhibiting in them, they do the divine meditation.

Since they have sexuality, they do procreation also. Offspring come out from the eggs. The juveniles are red coloured, having a little more thickness than the earth worm and less in length and also having hood. They don't eat the dust in the earth. These heavenly bodies do not need food. They inhibit eternally receiving cosmic energy.

Brahmins used to respect and protect them by making special abode and protect them and following some rituals, if they find the presence of Snakes of Fire in their living place with the help of horary astrology. Just like Levites in Jews, Brahmins are the clergymen of the Hindu religion and hence they are allowed to do it. By doing this, they get divine blessings and prosperity.

Even though they don't need food, they receive the essence of food given to them as offering. Usually they won't bite or kill anybody. Because they have shrewdness like messengers of God and have wisdom more than man.

The Serpent in paradise whom God cursed, was not Snake of Fire. It was one creeper among reptiles in this earth.[made up of soil]. We can see the history of creation in one of the ancient stories of Hindus, namely Bhavishyapuram, 1st Section 4th Chapter, similar to as described in the holy Bible. [Prathisargaparvam section]. In the said story, 'Adam' is described as 'Adaman' and 'Eve' as 'Havyavathi'. We read in that book that “Kali” or 'Evil' came in the form of Snake deceived 'Adaman' and his wife 'Havyavathi”.

God has given Lord Shiva, who is the Rishi of the holy deities and one of the children of mind of Christ, a Snake of Fire as ornament on the neck. Now a days, so many people become victims of the anger of these Snakes of Fire. The cause of anger of Snakes of Fire and the consequences can be obtained from astrologers and astrological books. Some activities of man being done in the habitat of the Snakes of Fire intentionally or not, may disturb the holiness of the Snakes of Fire and it is followed by many burdens due to the decrease in the blessings from God and these burdens are called the anger of the Snake of Fire.

From ancient days, it is sure that if a person lives in a place where habitat of Snakes of Fire is there, then definitely he would have anger of the Snakes of Fire. He may not even know the inhibition of these Snakes of Fire. But surely, in that case also, anger of Snakes of Fire will be with him.

St. George killing the Dragon

Bible certifies that earth is the foot stool of God. So, God wants to keep it holy and this may be the reason why the Snakes of Fire were created and inhibited in this earth. Though these Snakes of Fire inhabit in different places in the earth, they can come in front of God through Christ (Prajapathi) and worship directly as they wish [Do you remember a small reference I have made in the first chapter of this small book.].

The temple (Altar) most famous and specially installed for Snakes of Fire is situated in Mannarasala, Alleppy, Kerala, S. India. A peculiarity of this temple is that any religious believer has the permission to enter and execute the offerings for remedy to anger of the Snakes of Fire and prayers. “Altar” for Snakes of Fire are associated with almost all the “Shiva temples” and “Devi temples”.

If the Snakes that destructed the Israel people in the desert were the descendants of the Serpent who cursed by God in the paradise, then the Israel people could surely kill them. Because God had cursed them that their heads would be destructed by man. But the Israel people could not injure or kill even a single one. Therefore, it is clear that the Serpent who had been cursed by God in the paradise was not the Snakes of Fire.

There is no relation between the Snakes of Fire and the Serpent who had been cursed by God in the paradise. Only a resemblance in shape is there. The holy divine spirit and the dove in the earth have resemblance in shape but there is no relation in between. Like that, the Snakes of Fire has resemblance in shape with the king cobra in the earth. But actually there is no relation between them.

If we examine the history of man, we can see two more Snakes. One is “Snake Kaliyan” destructed by Lord Krishna and another one is the dragon killed by St: George. These two Snakes were the ‘demon Snakes’ which are the symbols of badness.(Evil). They didn’t have glory or holiness. They were evil Snakes. There are indications about the like wise Snakes in the book of Revelations. The Snakes of Fire and evil Snakes are opposite forces. There are more details about the Snakes of Fire in the “Book of Hymns” written by the great scholar King Solomon.

Suppose if the anger of the Snakes of Fire found out from experience or with the help of horary astrology, then Hindus used to go the “Mannarasala temple” and make the image of the Snakes of Fire with brass or silver and offer it there and get the relief from the anger of the Snakes of Fire by doing some offerings and following some rituals there. The Jews and Muslims used to remember the great scholar King Solomon by chanting and doing offerings allowed to them for escape from the anger of the Snake of Fire.

The Christians make model of reefs, Snakes and eggs with silver and submit it in churches built in the name of St. George with prayers. It is an indirect method for Christians for escaping from the anger of the Snakes of Fire.

But it is a fact that so many Christians who believe in astrology and have a know how about the Snakes of Fire go to the “Mannarasala Temple” and perform offerings to the Snakes of Fire and eliminate the anger of the Snakes of Fire.

It is proved from an incident occurred in Tamil Nadu that the Snakes of Fire can receive the shape of man and talk to human beings.

The clergymen in a temple in Tamil Nadu, (A southern state in India) was sitting near the Altar. Suddenly a Snake came near him from the Altar scrolling on the ground and then the clergyman stood with respect before it. Then the Snake become a Brahmin youth. The Brahmin youth blessed the clergymen after saying” This world is advancing to badness from badness. So advice the believers to come more nearer to God.” The Brahmin youth then advanced a little and again become a Snake and returned to the Altar.

We can infer from the above incident that the concept ‘ Snakes of Fire are Hindu Concepts’ is wrong. Because in Bible also, there are references regarding Snakes of Fire. The Snakes of Fire inhabits in so many places in this earth. They don` t have any discrimination of religion.

Since they don` t have any discrimination of religion, they are messengers of communal harmony.
