

Chapter 32

Angels and the Holy Deities

Mr. V.M. Thomas (V. M. T) once studied about the astral position of a mental patient who approached him for treatment. [Only through Astrology, we can find the astral position of a person]. From the above study, he could understand that there were two reasons which resulted in an unbalanced mental state in the patient. One was the anger of the Snake of Fire. Second was the torture by the evil spirits. V.M.T advised him remedies for eradicating the anger of the Snake of Fire. When the patient completed all that remedies, then appreciable changes seen in his case.

Now remains the evil spirit embedded by somebody who did the witchcraft. And we (V.M.T and myself) had been seeking the help of Arch Angel Michael for exorcism, with the help of a medium. The angel began to fly after the evil spirit with the naked sword drawn from the scabbard after we had agreed that we would do all the things that the angel told to us. May be they were powerful evils, the holy deity of treatment, “Sri Danwanthary Moorthy” (the holy Deity of Treatment according to Hindu doctrines) appeared in the path of the evils and burnt some medicines (medicinal plants.)And thus lowered the power of the evils. He said “ The angel can now conquer the evil without much effort.”. Suddenly the evils yielded and the Arch Angel Michael made them prey to the sword. At once, more angels, holy deities like Lord Shiva, Lord Krishna etc arrived there. They gathered on a wide pasture. The holy deities were amused by acting some scenes of great battle “Mahabharatha” by the angels. The deities sang songs, usually sung by the angels very sweetly. The medium said, ‘ rejoicing some time with jokes, the two teams disappeared after congratulate and tribute each other.’.

The patient came to the normal state very soon. V.M.T again studied about the astral position of the patient and that time it seemed better than the previous one. And he confirmed the exorcism a success. From the above example, we can realize that the holy deities and the holy angels are in good relation. But the ignorance of the people leads to communal riots. The usual procedure is to contempt other religions by praising own religion as the best. But from the first chapter, we have learned that all religions are true and it is another non-forgettable truth that all these truths dissolve in Christ and ends in God. Because we have seen that “Aum”, “Amen” and “Ameen” all are the one and the same. So conversion is not the method by which any believer dissolves in Christ and achieve God. The only and one way for the above thing is to lead a life filled with sympathy and innocence which are the outcome of mercy, standing firmly in the own religions and customs and rituals. So let us become the doves of peace in this world- like mother Teresa, Fr. Damien, etc.
