

Chapter 9

Astrology and Bible

“Have you grasped the celestial laws? Could you make their writ run on the earth?”
(Job 38:33)

“Astrology is an ancient science that covers the rules of the heaven and its influence on earth.”

“Can you fasten the harness of the Pleiades, or unite Orion’s bands? Can you guide the Crown season by season?” (Job 38:31-32)

The depiction of the stars Pleiades and Orion and of the Zodiac Crown in Bible is given above. Pleiades and Orion is seen in the Bull sign of Zodiac Crown. Zodiac Crown is formed of 12 signs. These 12 signs are known in various languages as the 12 months. These are the fundamental factors of astrology.

We can read in Wisdom that “Those who have attained wisdom share friendship with Jehoa.” (Wisdom 7:14). The wisest of all, King Solomon and the Lord Shiva, who is the ‘Son of Mind’ of Christ (Prajapathi), all share friendship with God.

It is seen from Wisdom 7:17-21, that God had given all wisdom to King Solomon. We can also understand from Bible that Solomon had the wisdom to predict the changes in the signs of Zodiac and the travel patterns of sun. Further from reading Wisdom 7:21 it can be seen that Solomon had acquired knowledge in the mysterious and also in the noticeable aspects of astrology. There are two types of studies regarding heavenly bodies and the zodiac; one containing the mysterious principles and the other containing the noticeable principles. The study involving the mysterious principles is termed Astrology and the one involving the noticeable principles is termed Astronomy. From the aforesaid definitions it is understood that Astrology is associated with spirituality and Astronomy is associated with physical science only. It is because of this reason that astronomical facts can be scientifically proved and astrological facts cannot be. We cannot establish the presence of God using scientific equipments, but can only believe so. Similarly using equipments of physical science we cannot scientifically prove the mysteries of astrology. So we must understand that Bible approves astrology.

King Solomon knew astrology, the spiritual science, better than all the people that were ever borne on Earth.

Astrology deals with the study and interpretation based on the transitions of planets of the zodiac and the twenty seven special stars which has exceptional position in the innumerable stars visible in each of the twelve signs and their rising and setting and the angles at which lunar sphere crosses these twelve signs and in coincidence with the 27 noticeable stars while revolving around earth. Based on these mysterious facts astrology can predict even the minute details in the life of a man.

The mysterious facts are known as the “Heavenly Rules influencing Earth”. When we think about these factors in a spiritual way, we can understand more about Astrology. How can the lifeless forms of Solar system, lunar sphere and other heavenly bodies craft the mysterious facts that control the biosphere? It is a very interesting topic. In the Book of Revelations in Bible there is mention about a messenger of God that is positioned on the sun.(Revelation: 19:17)

One of the mysterious fact of Astrology is that, for all the heavenly bodies in the solar system including sun, God has created angels and given them control. But the control of Earth was given to man whom Lord Brahma (God) created in his own resemblance. So the deities of the planets have much influence on man and his surroundings. Since these angels are invisible forces, physical science cannot detect them. Man can understand about the influence of these rules on Earth through his knowledge from experience. Only through experience he can understand about God also.

If we read the Book of Isaiah we may think that astrology is an unethical subject. “All the counsel you have received has only worn you out ! Let your astrologers come forward, those stargazers who make predictions month by month. Let them save you from what is coming upon you. Surely they are like stubble, the fire will burn them up. they can not even save themselves from the power of the flame” Isaiah 47:13-14

Those who are reading only Isaiah 47:13-14, astrology is unethical. But to understand the correct meaning of the verses 13 and 14 one must study chapter 47 in full. The people of Babylon were performing black magic to please the devil for physical gains. The astrologers there were using astrology to please the evil spirits. In Isaiah 47:10 we can see God’s own words on Babylon; “Your wisdom and skills have made you wrong”. By wisdom God means the wisdom of astrology. God’s accusation towards the astrologers of Babylon is that due to heightened evilness they adapted astrology for immoral gains. “Worship of evil spirits” is the sin the Babylonians had done.

From Chapter 17 of the Book of Isaiah we can understand that astrology is one of the wisdoms and its usage for evil will evoke God’s anger. When God destroyed the worshippers of evils in Babylon, he warned the astrologers that he will destroy them too. They were the ones that worshipped the evil spirits. They gave no place in worship for God or his son Prajapathi (Christ), the angels of God, the sacred deities and the snakes of fire.

**“Astrology is a true subject”
Author (right) consulting the famous Astrologer
Mr. Krishna Moorthy**

From the aforesaid chapter of Bible (Isaiah 47) the foremost thing we can understand is that astrology must only be used for righteous purposes (divine purposes). Science is excellent and is a close friend of man, but if we use it for evil purposes, it will destroy him. The same happened to the astrologers of Babylon.

In Chapter 8 of this book we read about the three Magi who used astrology for divine purposes and got the fortune to worship infant Christ. The skill that made them to understand the influence of the newly risen star on Earth is Astrology. The influence of the new star on Earth was the holy incarnation of Christ.

The astrologers of Judaism, Islam and Hinduism are all worshippers of God. The Jews and the Muslims use the wisdom and prayers that God gave to Solomon to ward off the evil spirits from man. Astrology is necessary for one to see whether he is under the control of evil spirits infected through black magic of his enemies or otherwise. Also it is necessary to check whether the evil spirits have been permanently withdrawn by performing the prayers and divine rituals.

Mr.P.M. Jalaluddeen Sahib

An Arabic Astrologer with 'The Book of Hymns and Astrology' written by King Solomon.

The question of Christ to Jewish priests “By whom your sons ward off the evil?” make us understand that Christ approves the wisdom, God gave to Solomon. This is because Christ didn't come to Earth to remove anything divine and God had bestowed wisdom to Solomon through Christ as he was with God from the very beginning and he himself is the sacred word Amen (Aum) which was not created.

The redemption from sin and deliverance for followers of all religions is attained through Christ (Prajapathi). This is because he is the final judge and will grant salvation and deliverance to all righteous people belonging to any religion.

As Christ is the son of God Himself, He is not required to use the prayers as per the spiritual rules to ward off evil from infected people. By proclaiming that He is nobler than Solomon, Christ is not rejecting the wisdom that God gave Solomon, but approves that.

Christ treats Solomon as someone below him. But Christians have neglected King Solomon and the wisdom that God gave to Solomon. It also points to the reason for the higher rate of suicide rate among Christians as compared to Jews and Muslims. This is because of the inability of Christians to ward off the evil spirits from those who are infected. So the evil infected persons usually commit suicide.

For all the believers of different religions, redemption from sin and the hymn or knowledge is equally important-like the two sides of the same coin.

For Christians the Holy Mass enables the redemption of sins and purification. But since they have set aside spiritual rules they are unable to ward off the evil spirits. The lives of the sinner woman Mariam and Zakkevus teach us that Christ is useful only to those who keep away from sin permanently. In short, the holy mass resulting in the deliverance from sins is confined only to those who keep away from sins permanently.

For Hindus the wisest one, Sri Sivasankar, is the creation of God and the Rishi of the holy deities and one of the sons of mind of Prajapathi (Christ). Ancient Rishi's earned this wisdom and formulated the Hindu hymns and chants.

In the case of Holy Bible, we can see that God gave wisdom through Solomon and purification through Christ, the source of all wisdom. Spiritual rules and purification is highly essential believers of all religions. Believers must unite this knowledge and purification to be successful.

Famous Astrologer Shri. V M Thomas Thondankulam (right) checks the vision power of a youth

Even though Solomon is below Christ, the wisdom that God gave Solomon is that of Christ's himself. All the information in the book written by Solomon regarding astrology and the methods required to ward off evil are all knowledge from Christ. But it is not a part of Bible but is a special book called "Spiritual Rules" or "Hymns".. It is written in Syriac and Arabic languages. Special permission is needed for one to learn that book. For Jews who want to learn how ward off evil, must get the permission of the high priests or the Pharisees.

For Muslims they must get the permission of “Thangal” or the Muslim celebrated authority for learning and using the aforesaid book.

In the book of Genesis in Bible we see God counting days one, two, three up to seven based on his days of creation. Man made these days eternal by giving them names of the seven heavenly bodies that influence Earth the most. “Njayar” (Sunday) means Sun, “Thinkal” (Monday) means Moon, “Chowwa” (Tuesday) for the red planet Mars, “Budhan” (Wednesday) for the planet closest to sun, Mercury, “Vyazham” (Thursday) for the massive Jupiter, “Velli” (Friday) for bright planet Venus and “Shani” (Saturday) for Saturn with its rings.

This is another proof for the close relationship between Bible and astrology. Those who reject astrology must count days like Day One, Day Two etc.
